COMMITTED
TO QUALITY

We select, prepare and market fresh frozen meats. The **tradition** of more than 60 years of **experience** in the sector guarantees the **passion** and **commitment** of the team that safeguards the **quality**, development and **innovation** of our products in order to offer a range of **trusted food and service**.

Ultra frozen foods that ensure their nutritional value and organoleptic properties. **No additives, preservatives or artificial colors.**

ALL OUR PRODUCTS ARE GUARANTY OF:

Guaranteed tenderness and flavor

Trusted meats and preparations that enhance your recipes by providing flavor and juiciness.

Benefits of deep frozen

Products deep frozen at -80°C , which preserves the organoleptic values of fresh meat for longer.

Allergen free

Deep freezing prevents from using preservatives with allergens (derived from lactose and sulfites).
Products without gluten or soy and with pea protein.

No added animal protein

The use of animal proteins causes slight organoleptic changes, the use of vegetable proteins enhances the natural flavor of the meat.

Cost reduction

IQF products allows to remove from the bag only what we're going to cook and it make easier to cook the product without having to defrost.

RECOMMENDATION

Defrost at a temperature between 0°C and 2°C before cooking (between 12 and 24 hours depending on the product).
